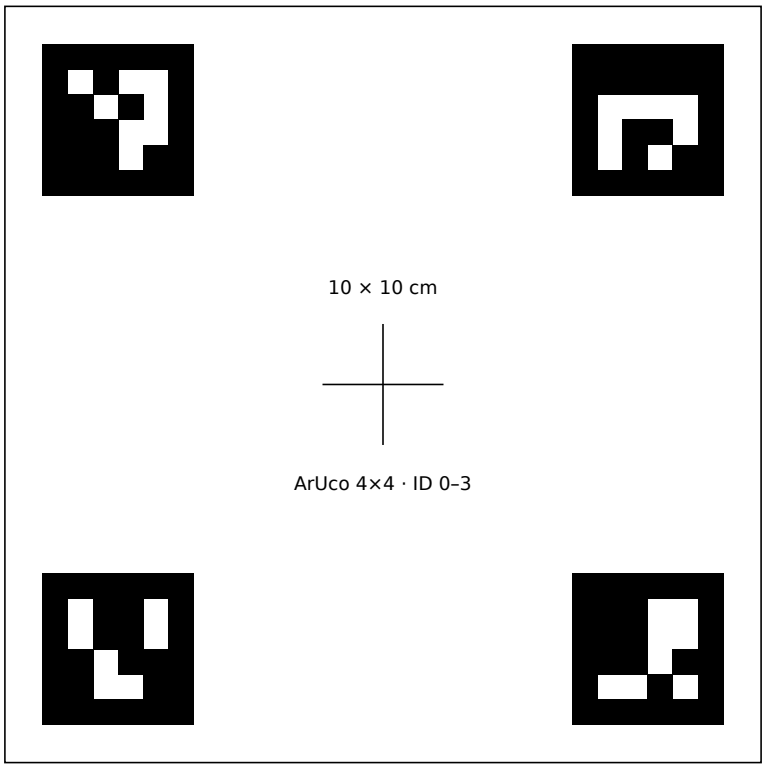
Reference card for photos (mode "copy a favourite garment")

1. Print at 100 % / "Actual size". The square must measure exactly 10 × 10 cm.
2. Cut it out (along the outer line) and lay it flat next to the garment. Do not fold it.
3. Take the photo straight from above, card fully visible, uncovered, on the same plane as the fabric.
4. Ideally glue it onto cardboard so it lies flat. Do not write on the markers.



5 × 5 cm
control square
measure it!

1 inch

Measure the control square: 5 × 5 cm.

Alternative: lay a folding ruler along two edges in the picture and give its length.
